

100 MILER

QUALIFICATION CRITERIA

The following qualification standards are applicable to the 2022 event. They are subject to change and non-negotiable.

- ❑ Completion of an official trail race, 50km or longer between 1 January 2020 and 31 December 2021. You must have finished within the final cut off time for that event. Your result must be for completion of that event. This means, for example, you cannot submit a result showing you made it 55km into a 100km race.
- ❑ You will need to submit a web link to your result (e.g. on the Official Race Website) when you sign up – or edit your registration details via your [MyEvents account](#) at a later date to include the link. This must be completed before 31 December 2021. Failure to do before this date will result in your entry being cancelled.
- ❑ Race management reserve the right to reject any result deemed not meeting the above criteria.
- ❑ Failure to meet the qualification standard will result in automatic cancellation of your entry where our [standard refund policy](#) would apply. Therefore, it would be wise to have completed your qualifying run prior to entering.

We understand that COVID-19 continues to have an impact on races around the world, and for some athletes it may be difficult to compete in an official timed race prior to fulfil the qualification criteria. If you think you will be impacted, please contact us at taraweraultra@ironman.com to discuss your options.
