

100 MILER

QUALIFICATION CRITERIA

Due to the effect COVID-19 has had on races around the world, the following qualification standards have been introduced for the 100 Miler in the 2021 event. They are subject to change and non-negotiable.

- NEW FOR 2021** – completion of a self-timed run, 50.00km or longer before 31 December 2020. The 50.00km must be completed within a 10 hour time period and a clean GPX recorded, OR;
- Completion of an official trail race, 50.00 km or longer between 1 January 2019 and 31 December 2020. You must have finished within the final cut off time for that event. Your result must be for completion of that event. This means, for example, you cannot submit a result showing you made it 55km into a 100km race.
- You will need to submit a web link to your file/result (e.g. Strava Link or Official Race Website) when you sign up – or modify your entry profile at some later date to include that link. This must be completed before 31 December 2020. Failure to do before this date will result in your entry being cancelled.
- Race management reserve the right to reject any result deemed not meeting the above criteria.
- Failure to meet the qualification standard will result in automatic cancellation of your entry where our [standard refund policy](#) would apply. Therefore, it would be wise to have completed your qualifying run prior to entering.
